PROFESSIONAL EXPERIENCE

Website Manager and Developer (Volunteer) | Lyndhurst Meditation, Lyndhurst, NJ

Apr 2021 – Present

- Build, maintain, and update business's website through WordPress.
- Update web content and send marketing emails under direction of the owner.
- Designed site layout, visuals, and navigation to create a user-friendly experience.
- Ensured website responsiveness and utilized CSS for custom layouts.

Warehouse Associate — Store Distribution | Macy's Logistics, Secaucus, NJ

Oct 2024 – Present

- Conduct research on cartons with missing labels using the company logistics system.
- Process no-read cartons using scan gun and relabel for sortation.
- Sort, move, and organize pallets throughout the warehouse with a pallet jack.
- Unload trailers and assist in various areas as directed by managers.

Data Entry and Cargo Tracking Specialist | Publiship Logistics, Secaucus, NJ

Feb 2019 – Jul 2023

- Entered shipment information and cargo details into a data tracking system.
- Generated and maintained status reports from tracking data for multiple customers.
- Helped improve efficiency of data entry by establishing upload templates.
- Trained customers on how to access and use the company tracking system.

SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, React, Astro

Tools & Platforms: GitHub, Vite, VS Code, Command Line, Chrome Dev Tools, Figma

Knowledge: Responsive Design, Accessibility, Data Handling, Component Architecture

SELECTED PROJECTS

Weather Now App

React app that lets users check current, hourly, and daily weather conditions for any location. Made use of various APIs to load data. Ensured keyboard accessibility.

Scoot Multi-Page Site

Multi-page website for a fictional scooter sharing service. Used CSS Grid and Flexbox to achieve responsive layouts. Implemented reusable decorative patterns.

React Contact Form Component

React form component featuring custom validation using the native API. Implemented error handling to provide immediate feedback without being intrusive for better UX.
